

Dear Mitacs Scholarship Selection Committee,

I am writing to recommend Nikhil Taneja for the Mitacs Globalink Research Internship. I have had the pleasure of knowing Nikhil Taneja for two years as the student. During that time, I have been consistently impressed by their academic excellence, research potential, and personal qualities.

Nikhil Taneja is a brilliant and highly motivated student. They have a strong academic record, with a GPA of 8.65. They have also taken on a number of challenging projects, and have made significant contributions to the field. For example, in their most recent research project, Nikhil Taneja developed a new graphical user interface using Raspberry Pi.

In addition to their academic and research achievements, Nikhil Taneja is also an outstanding person. They are kind, compassionate, and hardworking. They are also a team player and are always willing to help others. I am confident that Nikhil Taneja would be an excellent ambassador for the Mitacs Globalink Research Internship program.

I highly recommend him for the Mitacs Globalink Research Internship. I am confident that they would be a valuable asset to the program and to the Canadian research community.

Sincerely,

Mandeep Singh
